coaching + training
Be Your Best

The Change Management Effectiveness Model - Workshop

This workshop covers the 7 Categories of Change Management:

- Proactive Thinking - Module 1
- Organization for Change - Module 2
- Involving others - Module 3
- Visualizing the Future - Module 4
- Communicating Clearly - Module 5
- Breaking from the Past - Module 6
- Consolidating New Learning - Module 7

On-Site Training

A High-Performance facilitator and coach will come to your workplace, at your location, at your convenience to run this workshop or to further develop your managers and teams. The greatest transformation occurs when an entire department, management, or team is involved in the change and development process. Change occurs when everyone develops a new frame of reference allowing an increase on morale and efficiency

Follow up Coaching

Research suggests that training alone will increase productivity by 25%, however combining the training with coaching will increase productivity up to 85%. Knowledge is Power; however, Implementation leads to change. Each Candidate will receive 1 coaching session per module as part of your package. More sessions are available upon request.

Reporting Process

Action plans and professional development plans will be recorded, and passed to your reviewing manager that can follow up in several weeks or months to check whether you are sticking to the plan or achieving the results and targets that have been set.

Book Now to Qualify for Our Comprehensive Money Back Guarantee!

Change Management Effectiveness workshop is fully covered by our comprehensive money back guarantee. If after completing the coaching package, you feel that the program was of no benefit to you, and you have completed all the activities assigned to you, we will either refund 100% of your investment OR work with you until you see results. It's your choice.
