Coaching and Training

What happens if I can't make a session?

If you have given me 24 hours notice then you will have a one-on-one 30 minute online catch up session with me. This session needs to be scheduled before the next mastermind session.

I don't like working in groups!

We are flexible - you may substitute your group mastermind session with online one-on-one 30 minute sessions with myself. You will still have full access to the E-Learning Marketing System whilst you remain coaching with me.
